

A PARENT'S PARTY

Another great way to fundraise by hosting a party for parents.

This is more applicable for communities that have several families. Start by getting a nice venue and then invite the parents.

Prepare foods and drinks and set up a place to donate and contribute to your cause. You will be surprised at how many parents would be willing to attend the party. Parents love such parties as they give them a chance to have a night out and have a little fun.

You may also have volunteers to watch over children to allow their parents to enjoy the night.
